Ethos: We operate upon a scale of contribution and reciprocation.

This means that when you dedicate your time and effort to MJK we promise to return the favour. We recognise the value of our contributors.

Our projects thrive on the local platforms and connections we embrace.

Some of the best opportunities come from exchanging time and sharing resources. It is this exchange of energy that has truly brought the majik to Maddjakallss. We are blessed and grateful.

By way of this contract we recognise that your time and effort has entered into our collective. We are grateful and we thank you.

We want to know...What can we, in return, do for you?

Deepest thanks for all your time, ideas, contributions and donations so far.

By way of thanking you for your engagement we would like to invite you to complete the following so that we can express our appreciation and gratitude for all that you have done to make majik happen in Maddjakallss.

Being part of MJK has:-
